Checkpoint 1 SPRINT A DELIVERY 28-03-2024

**Krielen, Marcus M.J.A.** (Teacher) 3 months ago

Nice first presentation. Client has mentioned that the technical work is fine so far, but the professional skills need to be improved. Both teacher and client have some feedback to improve the professional skills: the group needs to be more pro-active.- Client finds some group members to be very passive/not interested. Some people in the group are struggling with receiving feedback. Feedback is a way of improving yourself. Not meant as a personal attack. Both client and teacher notice some people in the group find this difficult. That's the next step to take in personal development. And something we will work on in the upcoming weeks. Good luck with the next sprint!
